PROBLEM STATEMENT

SMEs in Bangladesh Face Critical Challenges

01

80% of SMEs struggle with financial mismanagement and lack data-driven planning

02

65% of startups fail within first 3 years due to weak business validation

03

Manual bookkeeping leads to tax errors and compliance issues

04

Limited access to investors and structured financial advice

SME sector contributes 25% of Bangladesh's GDP - these challenges limit national economic growth

MARKET OPPORTUNITY

Massive Untapped Market in Bangladesh

- **Target Market:** 8.1 million SMEs in Bangladesh
- **Reachable Market:** 100,000+ SMEs in 3 years
- **Market Size:** \$42B global business intelligence market by 2028
- **ARPU:** \$15/month (60% cheaper than global alternatives)

Market Trends:

- Digital transformation accelerating in Bangladeshi SMEs
- AI adoption growing at 25% annually
- Increasing smartphone and internet penetration

THE SOLUTION

All-in-One Business Intelligence Platform
